# Current Trends and Challenges in Space Law

DR. DIONYSIA-THEODORA AVGERINOPOULOU
AND KATERINA STOLIS

53<sup>RD</sup> EUROPEAN SPACE SCIENCES COMMITTEE
PLENARY METTING

1<sup>ST</sup> JULY, 2017

ATHENS

## European Institute of Law, Science and Technology

european institute of law science and technology

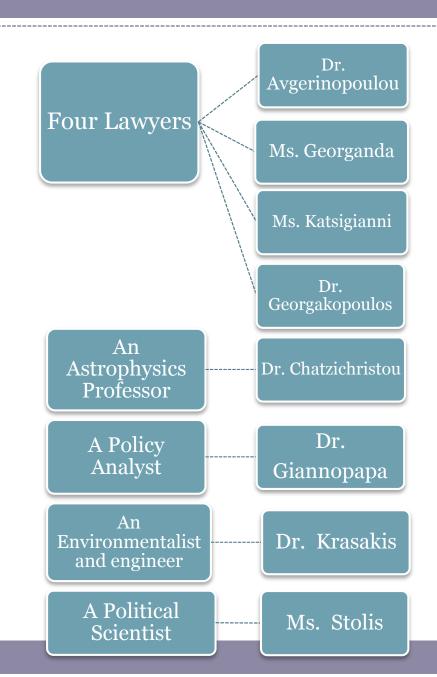

- Established in 2004
- Non-for- profit research organization
- Promotes innovation in laws and sciences
- Aims in smart inclusive sustainable development for all

## European Institute of Law, Science and Technology

- Innovation in six pillars:
- > Environment, climate change and energy
- > Space
- > Telecommunications
- Biosciences and research in genetics
- > Intellectual property
- Social Sciences

Who participates in our team?

european institute of law science and technology

### Our Activities and Initiatives

Space Exploration for -protection of our natural Support and Participate in: ✓ The preparation and implementation of related ural projects ✓the diss Series of lectures to farmers on the na ✓assisti applic strategy fo Consulting and networking with both ✓ the imple the public and private sources of and tools finance ✓ providing and

## Space Law

- Governing activities in outer space
- Karman Line
- Combination of customs and treaties
- Main Task: Free, unimpeded and nondiscriminatory access of mankind
- Leading role of sovereign states in the exploration and exploitation of space

## **International Space Law**

- Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, 1967
- Agreement on the Rescue of Astronauts, the Return of Astronauts and the Return of Space Objects Launched into Outer Space, 1968
- Convention on International Liability for Damage Caused by Space Objects, 1972
- Convention of Registration of Objects Launched into Outer Space , 1975
- Agreement Governing the Activities of States on the Moon and Other Celestial Bodies, 1979

## Fundamentals of International Space Law

- No nation can make territorial claims to outer space and celestial bodies within it
- Nations have free access to space
- ☐ Free to conduct scientific investigation
- ■National rights to space objects launched by them are preserved
- Nations will cooperate in rendering assistance to crews of spaceships in emergencies

## Current Issues (1)

#### The role of private sector in outer space

• Calls for a review of policy and legislation

#### **Space Tourists**

- Space tourism can be defined as space travel for recreational leisure purposes
- Such activities have to be properly integrated in a legal sense

#### Commercial Space Innovation

• Need for legal reform

#### **Opinion Juris**

Applicability without ratification

## Current Issues (2)

#### Military Activities

• Dilemma: Militarization vs Weaponization

#### Space Debris

- Veritable junkyard of orbital space debris
- Space debris mitigation guidelines

#### Protection of space assets

#### Legal regime pertaining to ASAT

• Take into account Space Law, International Law and Humanitarian Law

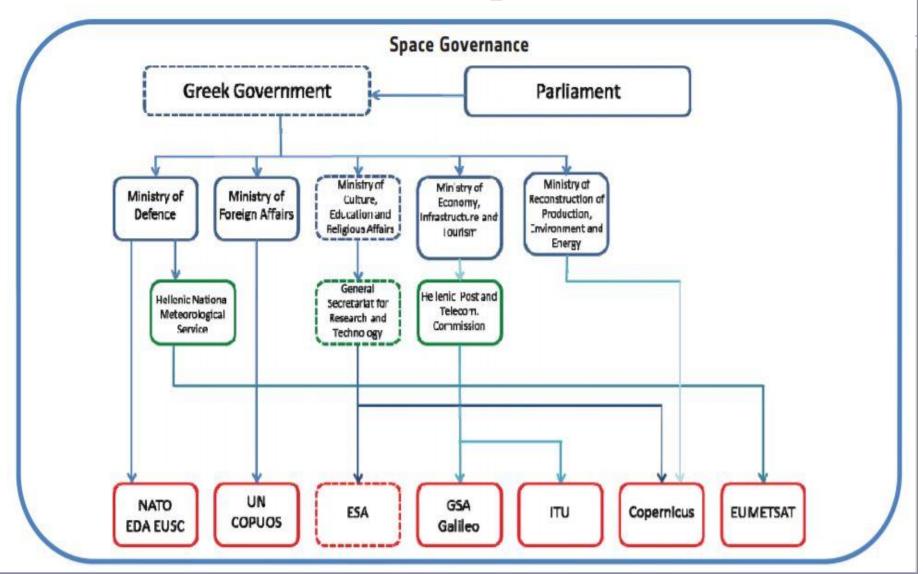

## Greece and Space Law

Greece is member of the UN COPUOS since 1980 In 1994 signed its first protocol for cooperation with ESA

Greece became the 16th member state of ESA in 2005

## Greece and Space Law

## Thank you very much for your attention!
